## User Segmentation

User Segment	Age	Existing Occupation	Motivation	Time Commitment
Students	18-22	Fresher	To explore PM	10+ hours
Working Professionals	23-27	Non PM	Transition to PM job	8-10 hours
Experienced Professionals	28+	PM	Transition to PM job	6-8 hours

## Selected User Segment

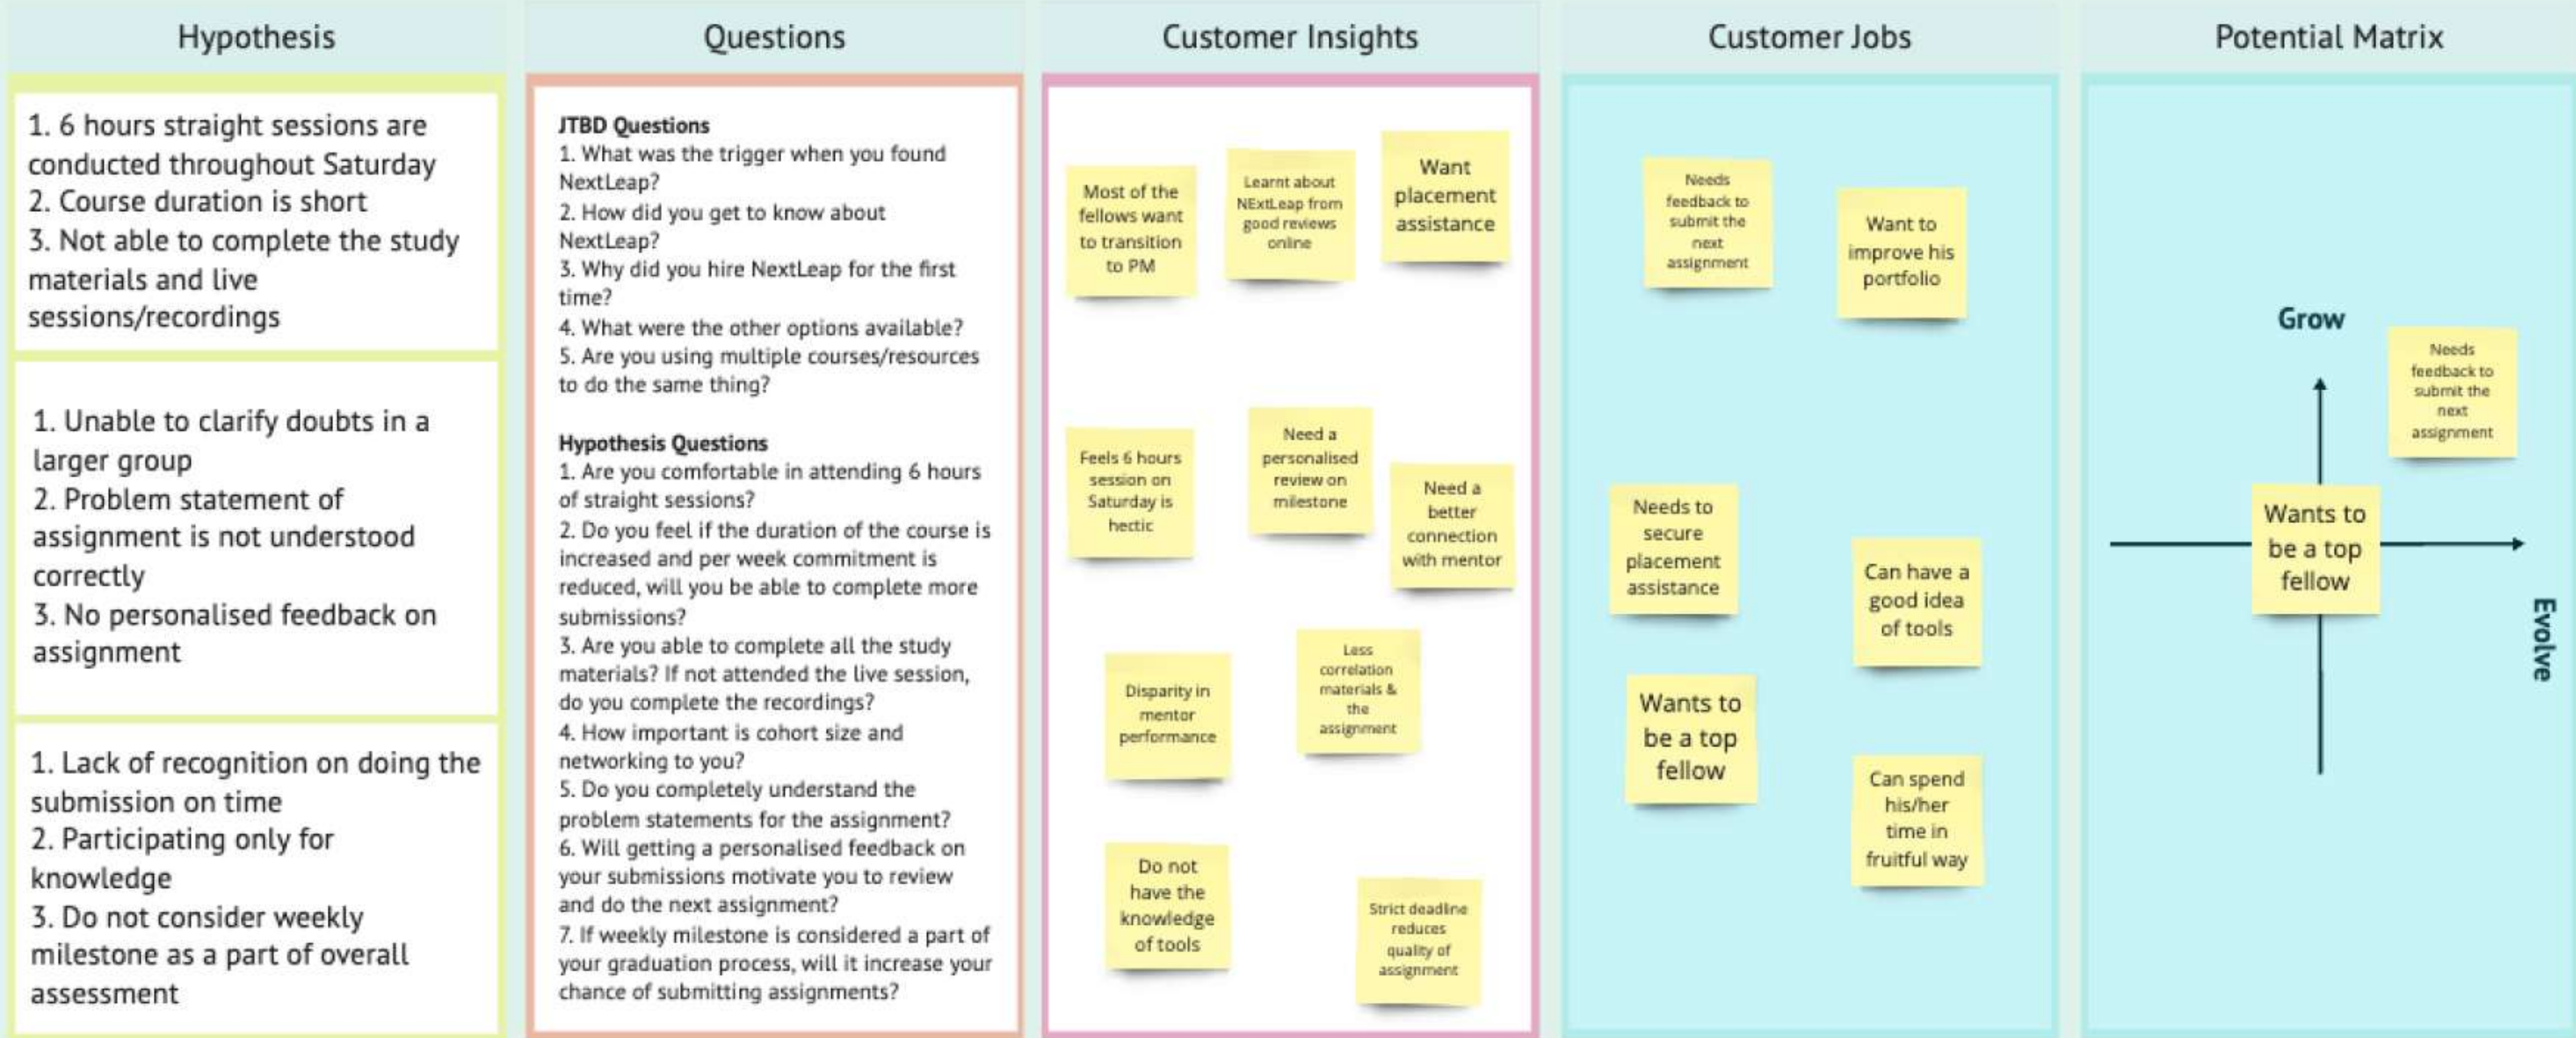

- **Demographic** : Age - 23-27  
 . Occupation - Working professionals
- **Geographic** : India
- **Behavioural** : Looking to transition to PM job
- **Psychological** : Job-To-Be-Done (JTBD)  
 Resources to get a PM job

## Impact Mapping

## Job to Be Done (JTBD)

### MAIN JTBD

**WHEN I** want to complete the weekly milestone assignment **BUT I** have limited time and no assistance with my assignment **PLEASE HELP ME** get corrective measures/path **SO THAT** I can become a top fellow and get placement assistance

## User Persona

**Rohit Khanna**

**Work** Software Engineer  
**Location** Bangalore  
**Age** 26  
**Status** Single

### Behaviour

Motivated

Punctual

Hard-working

Curious

### Bio

Rohit works in Oracle as a software engineer. He is a product enthusiast and is looking to transition into product industry. He spends most of his time at work. During Saturday he attends NextLeap's session and on Sunday he goes out with friends

### Wants & Needs

- Wants to submit NextLeap's weekly milestone on time.
- Wants to present his findings in a proper way.
- Needs to be a top fellow for the placement assistance.
- Wants to cover the reading material and live sessions before attempting the assignment
- Wants to participate in LIP challenge
- Wants to network with the other fellows

### Pain Points

- Feels like the 6 hours session is so overwhelming and hectic.
- Disappointed from no personalized feedback on his weekly milestone
- Strict deadline leads in either poor submission of milestone or no submission
- Does not have the proper knowledge of tools for presentation
- Does not get adequate support from mentor
- Does not understand the approach to solve the problem

## Framing the problem

### What is the true problem?

- User is not able understand the problem statement because of less clarity/lack of tools' knowledge
- There is no personalised feedback on milestones
- Strict deadlines/no follow-ups reduces motivation to submit

### Who are the customers facing the problem?

Fellows who are working professional, have little knowledge of the tools, and who cannot follow the deadline because of their busy schedule.

### How do we know it is a real problem?

User interviews and survey forms validated the possible hypothesis.

### What is the value generated by solving this challenge?

#### For target customers

- Increases in chances of becoming a top fellow, thereby getting assistance in placements
- Portfolio betterment and better personal branding on LinkedIn

#### For target customers

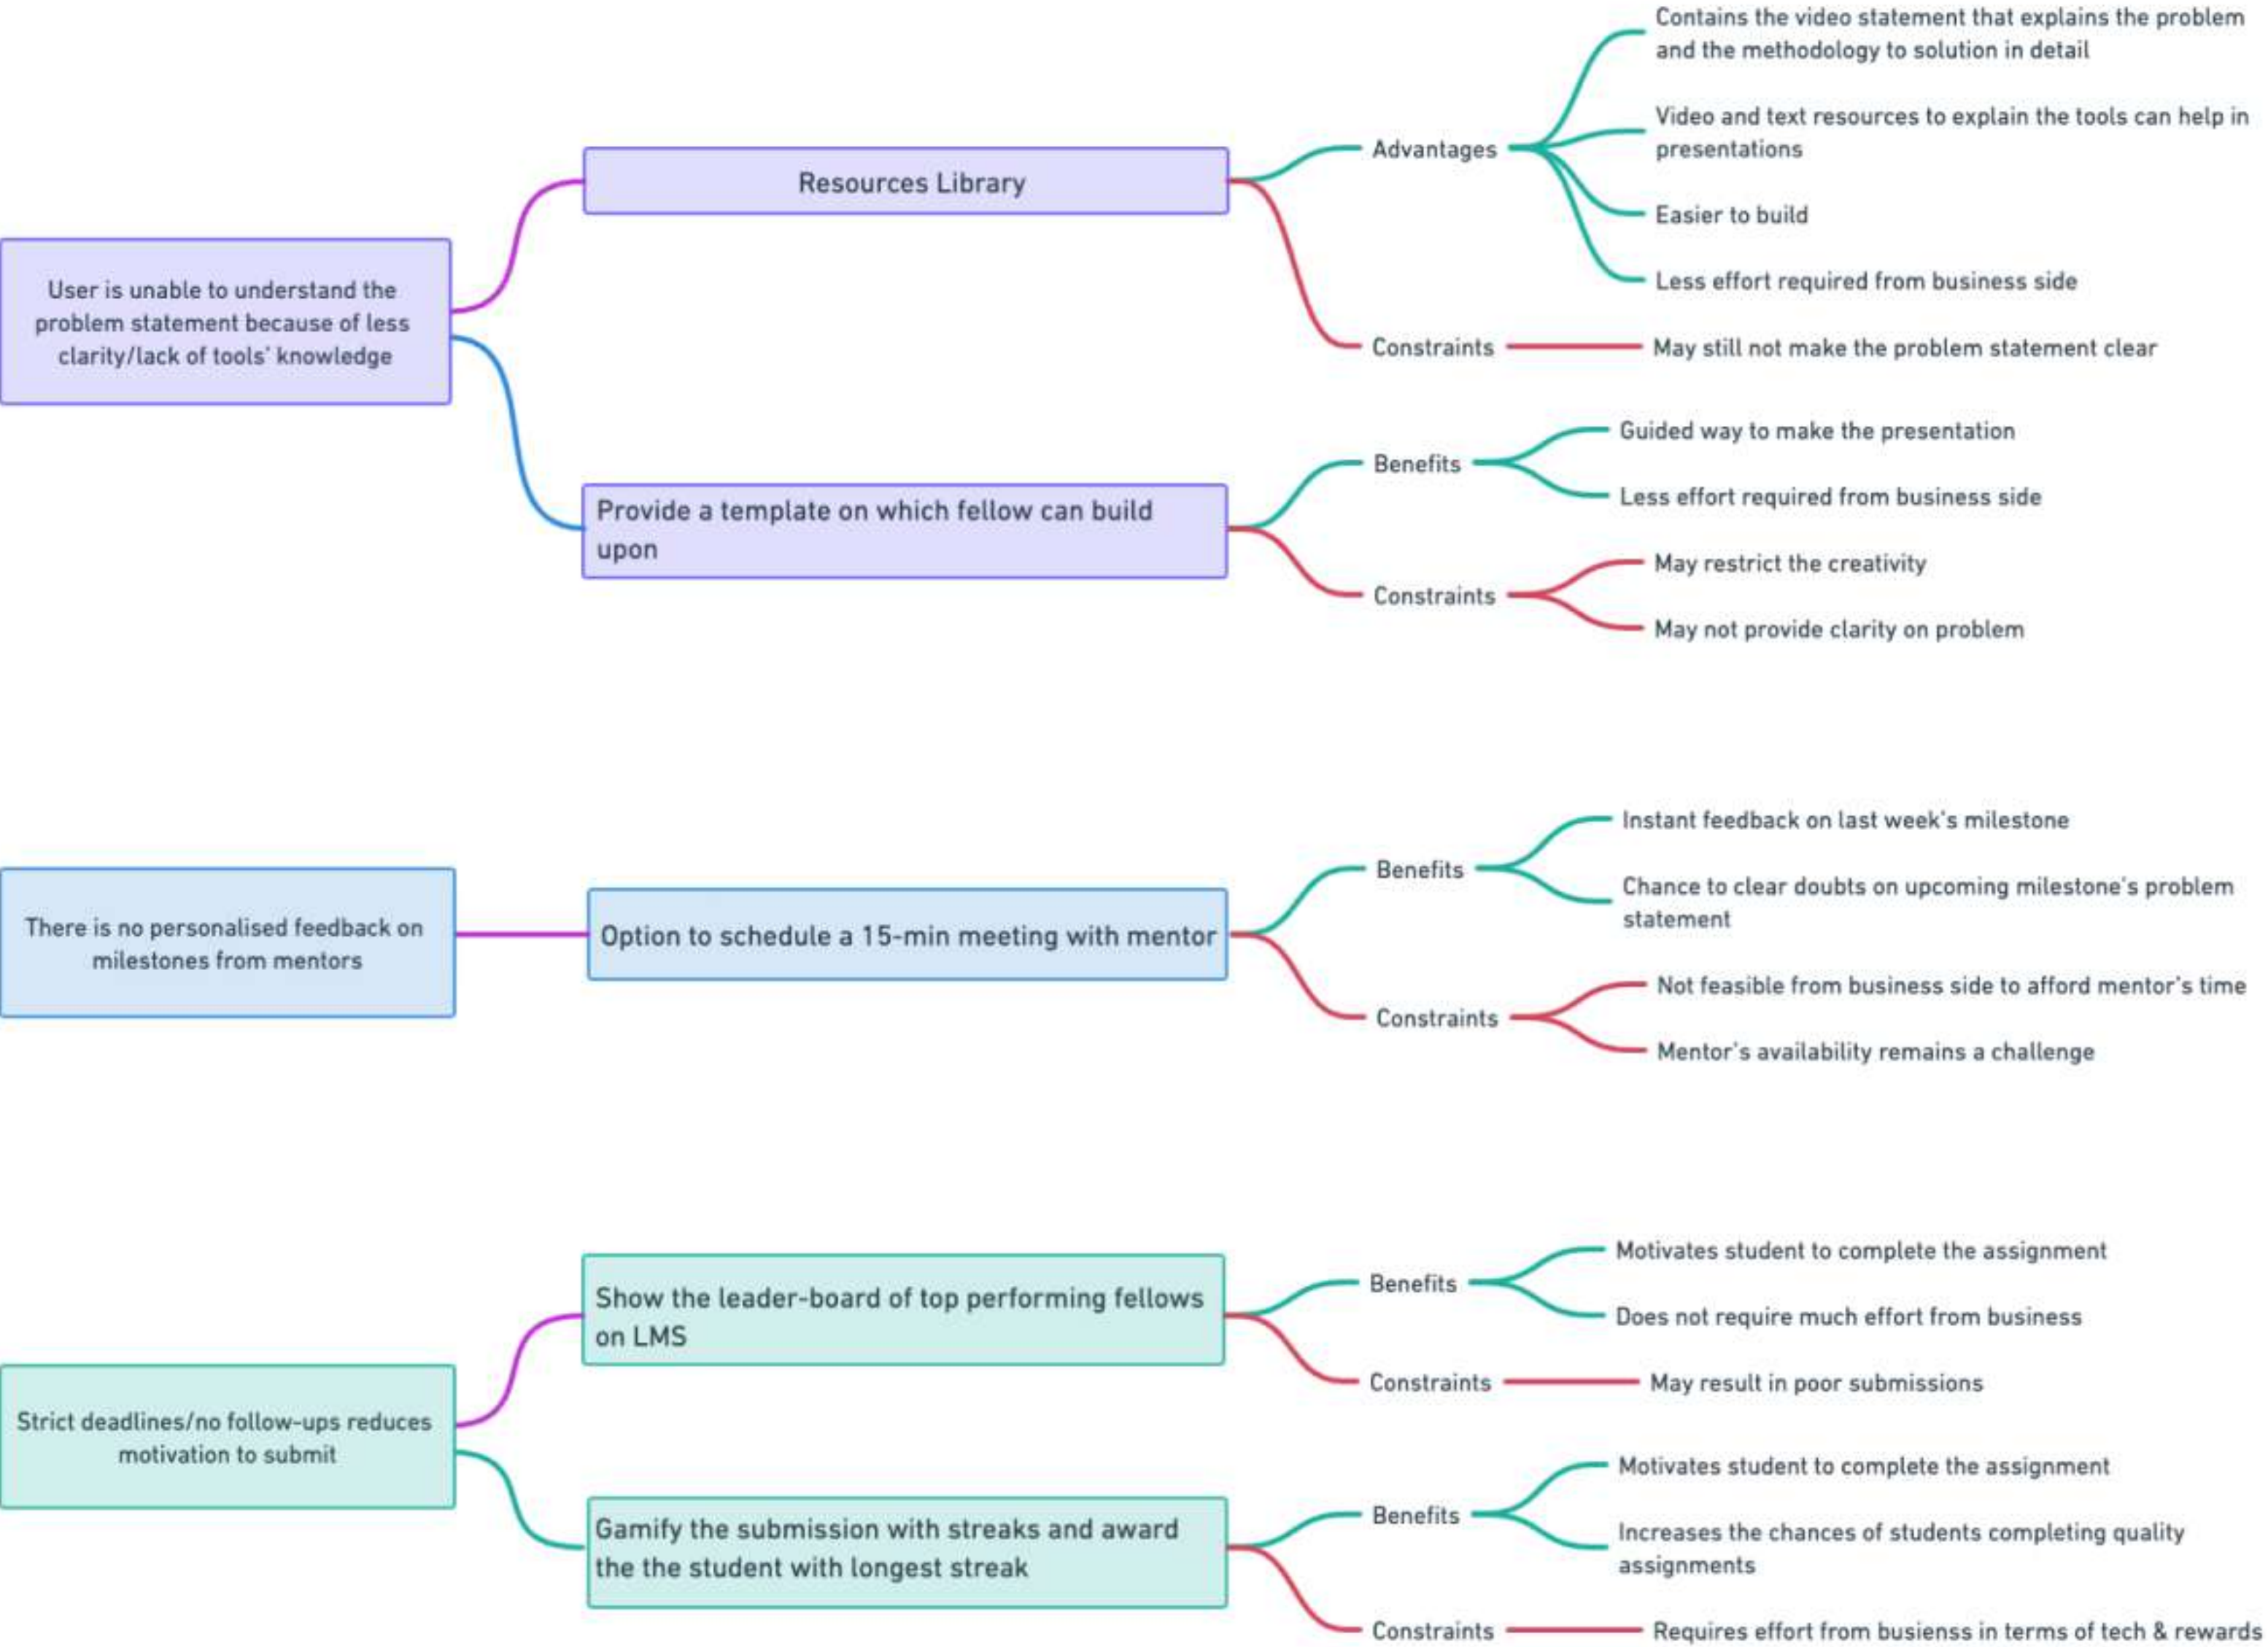

- Increases in chances of becoming a top fellow, thereby getting assistance in placements
- Portfolio betterment and better personal branding on LinkedIn

### Why should we solve this problem now?

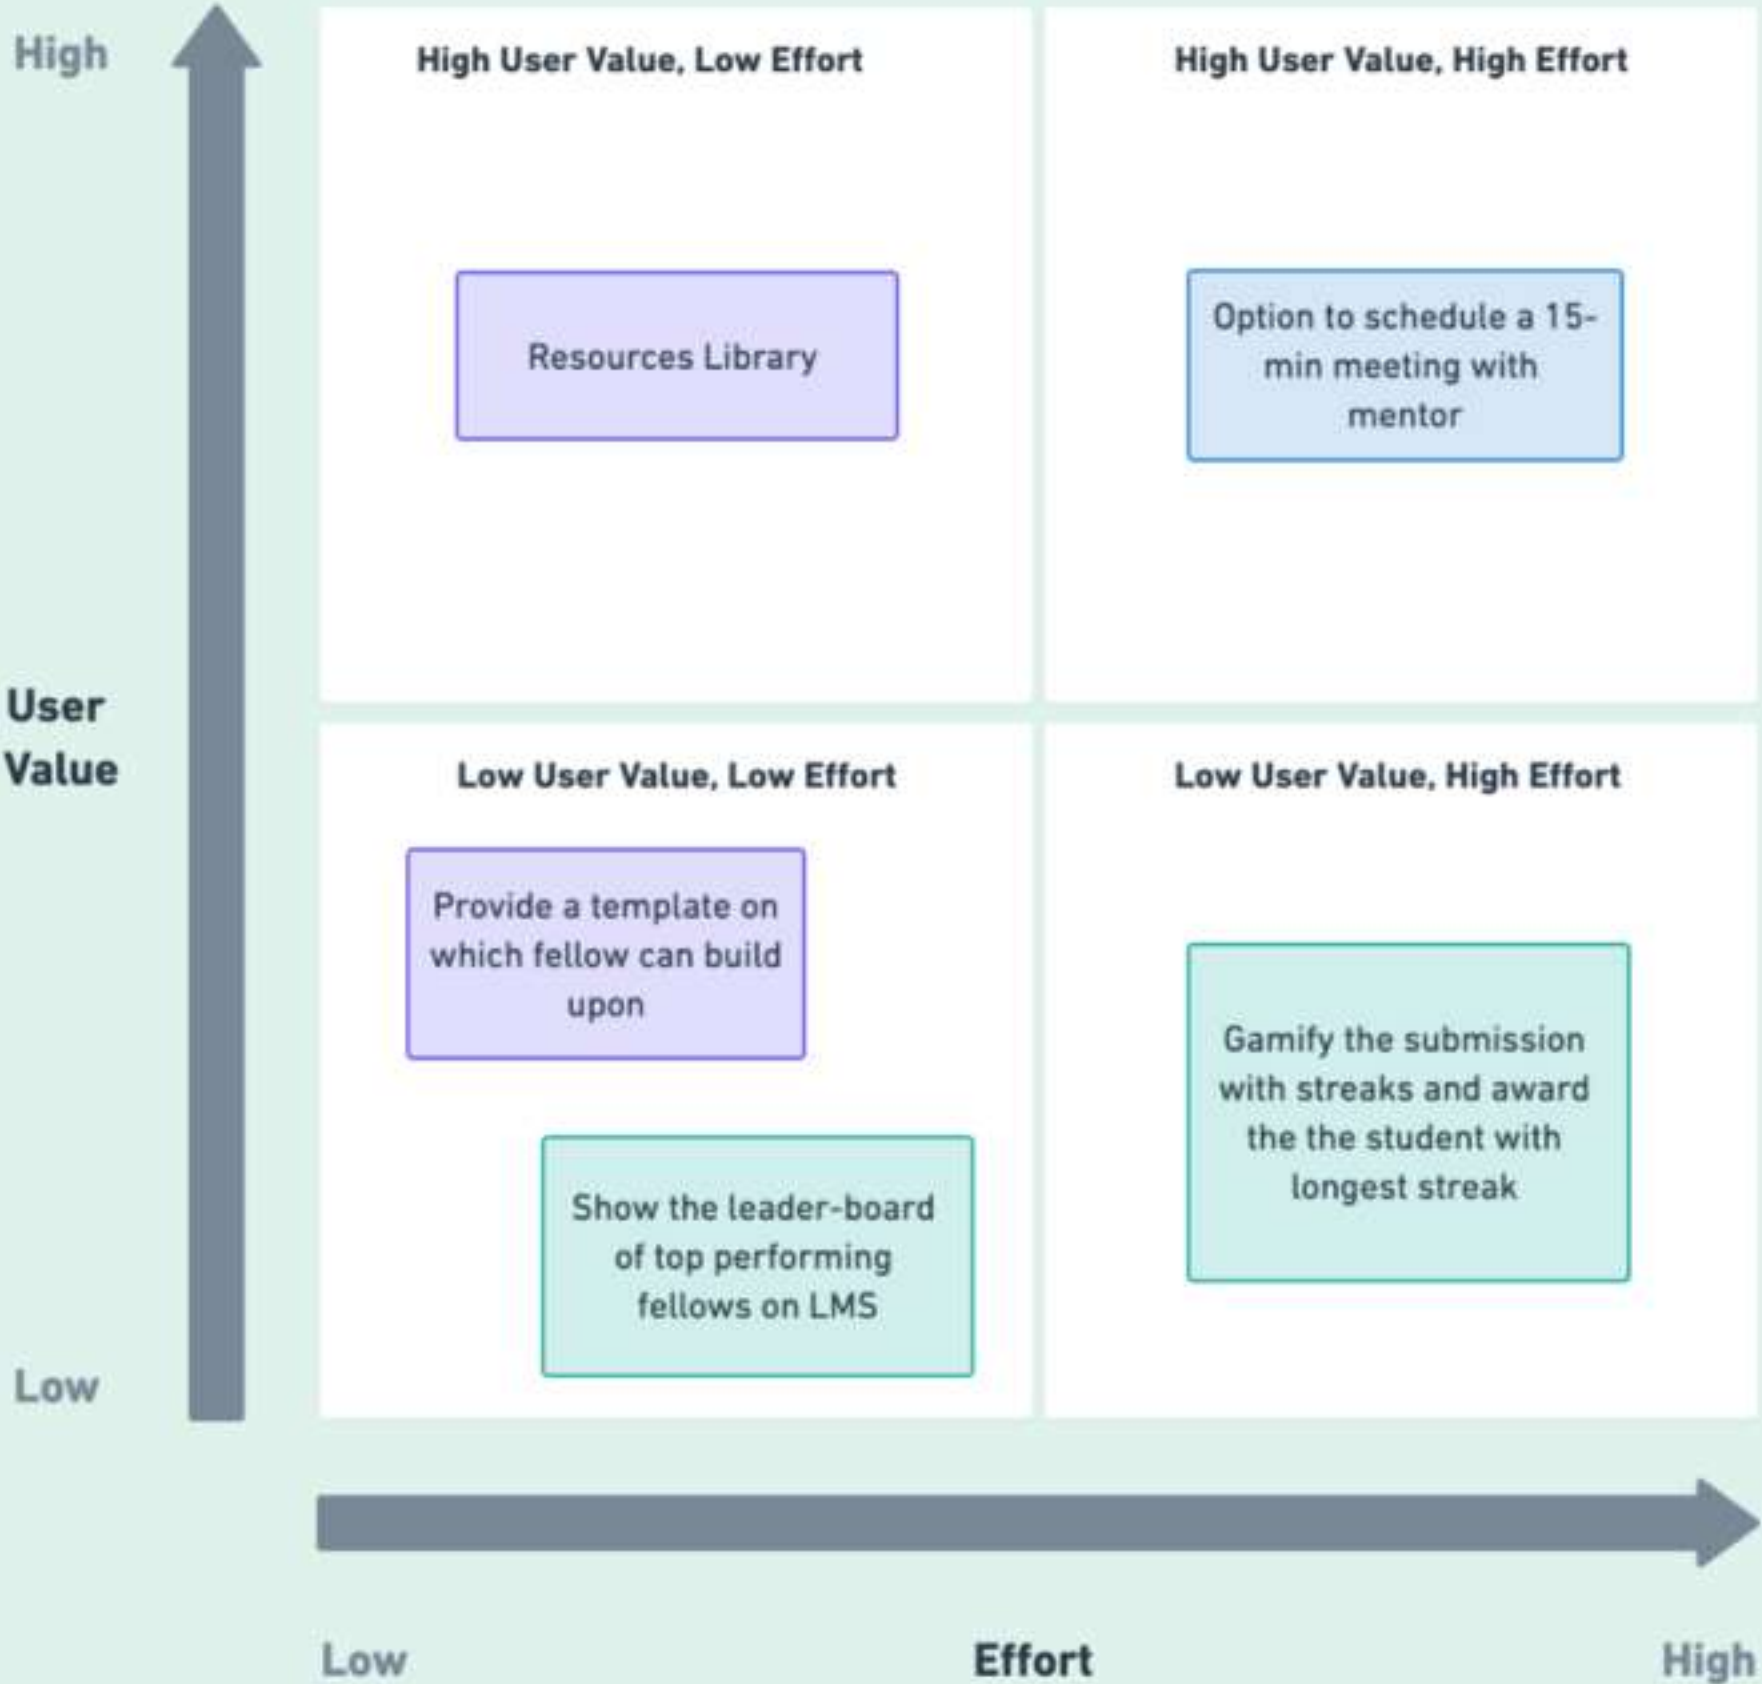

Data shows the motivation of the fellows drop after 2 weeks of join which is decreasing the rate of retention

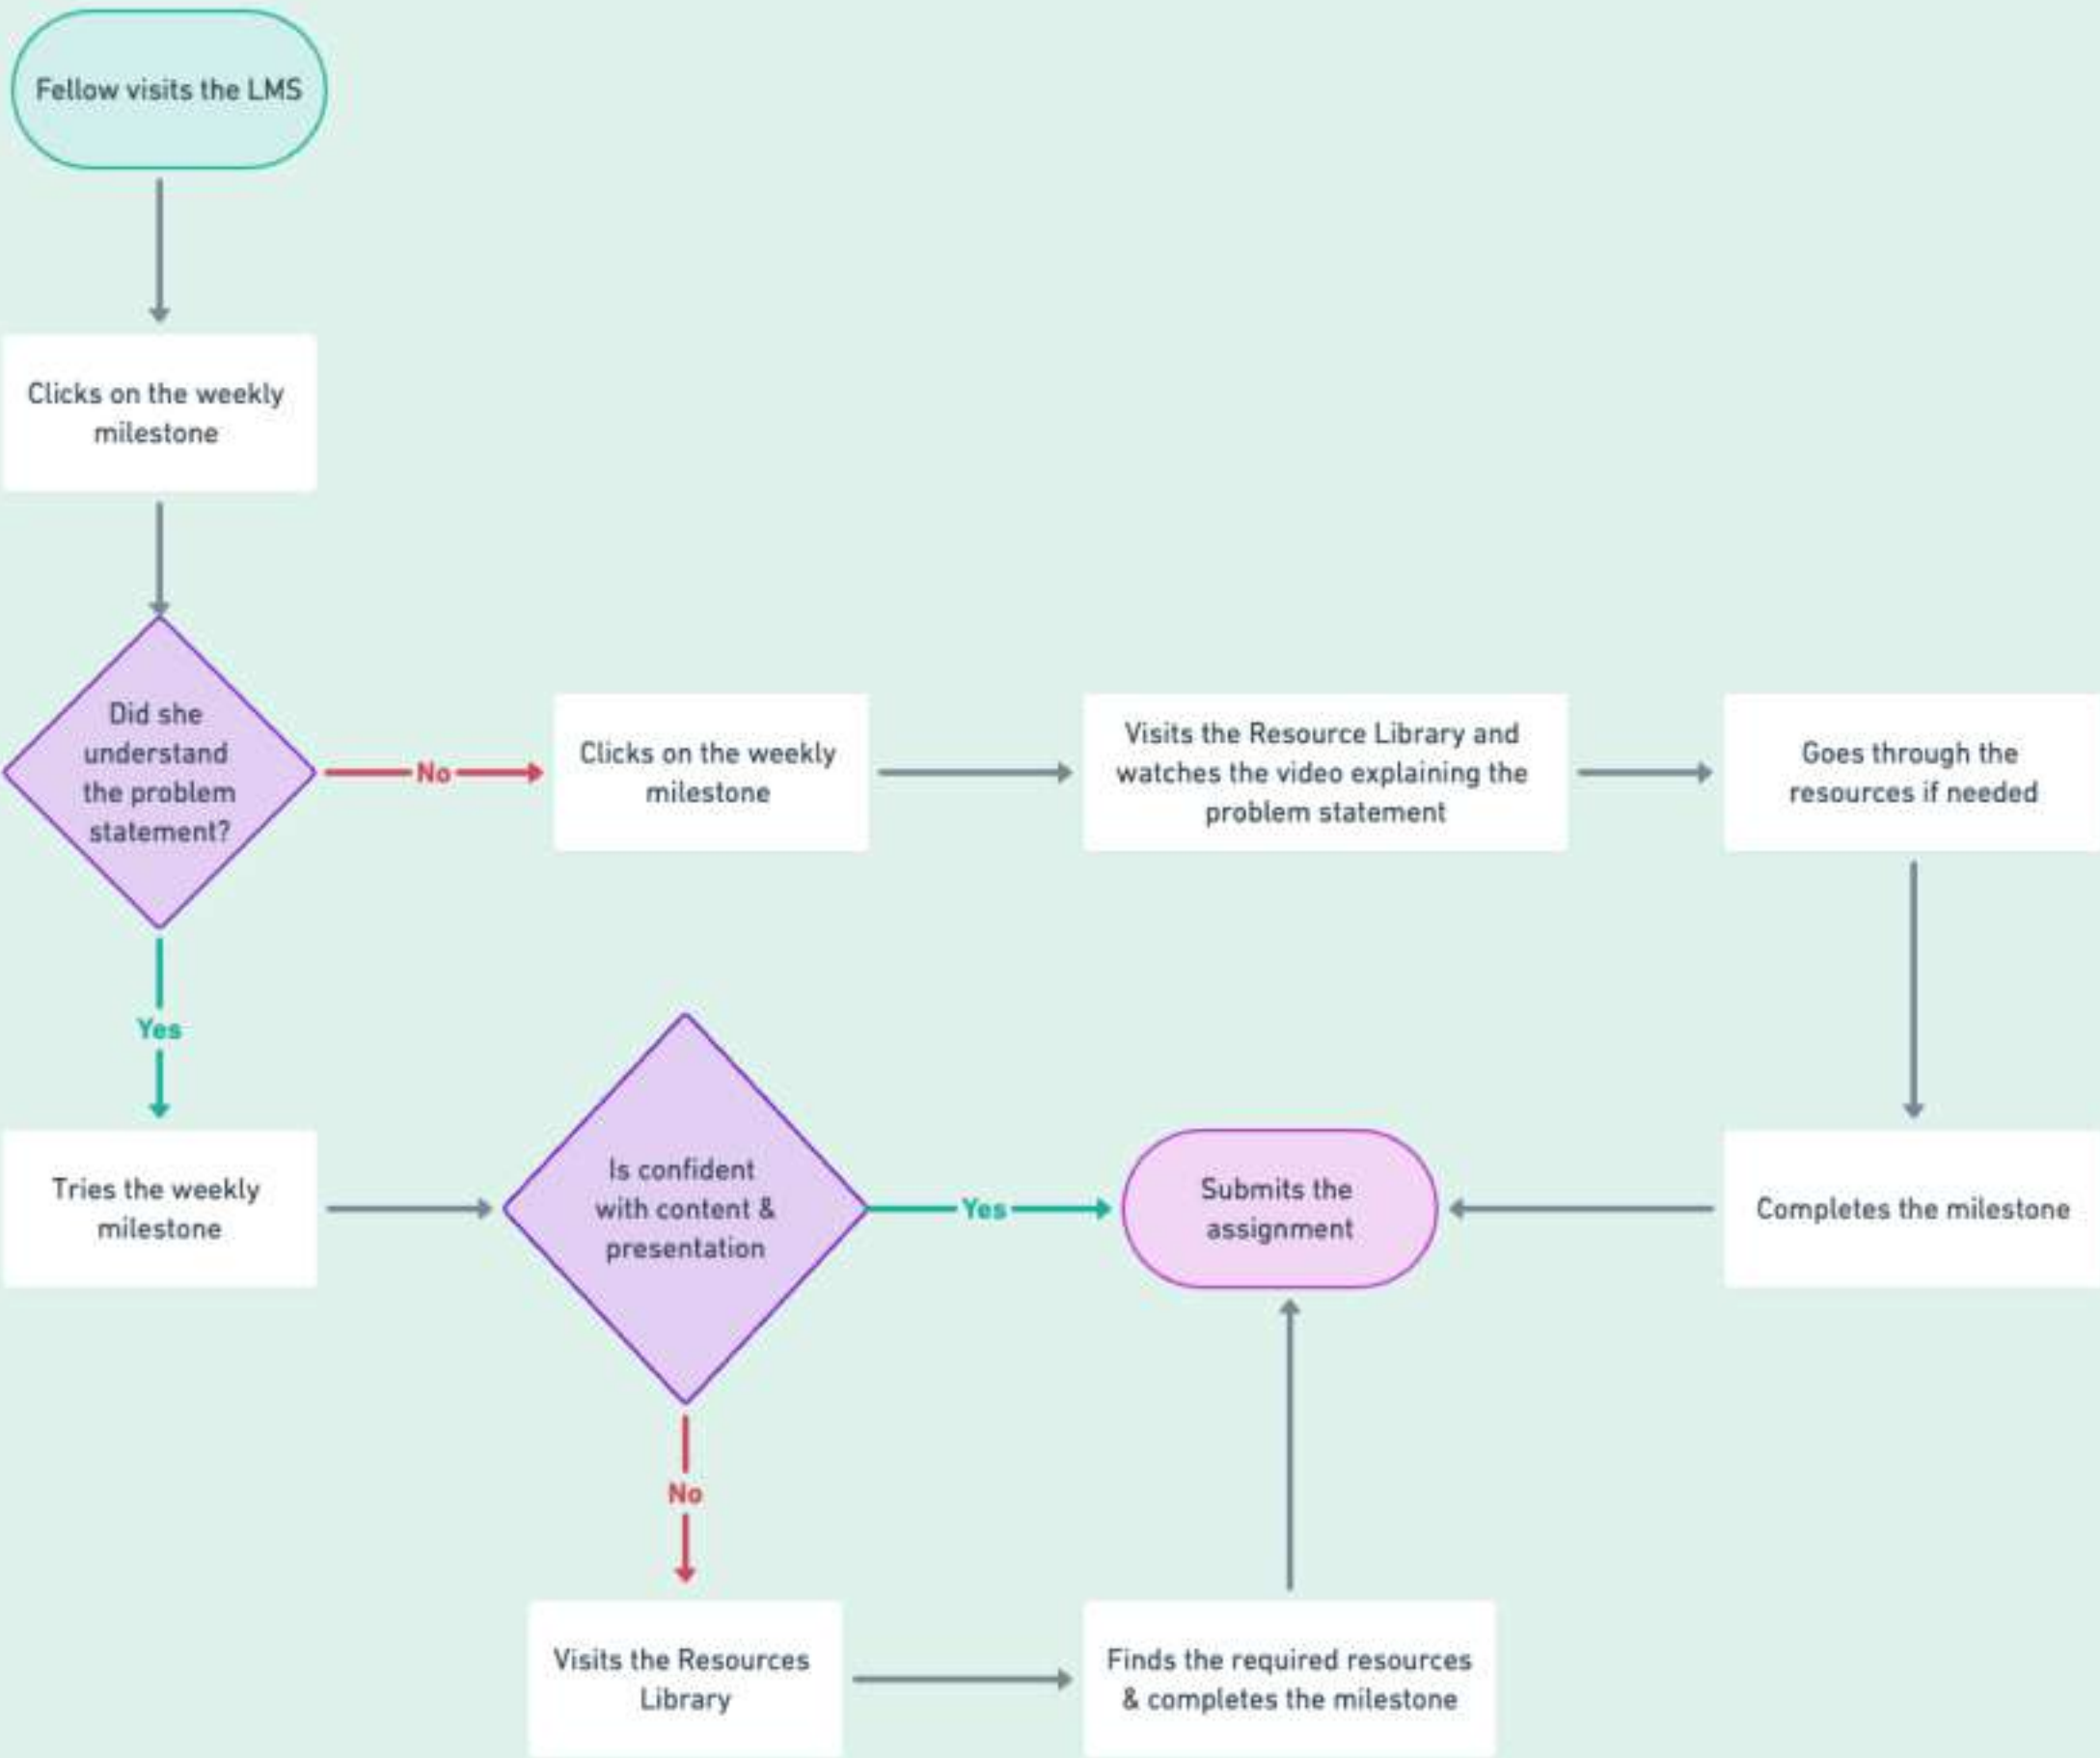

Mind-map of Solutions

### Prioritisation of solutions

### User Flow

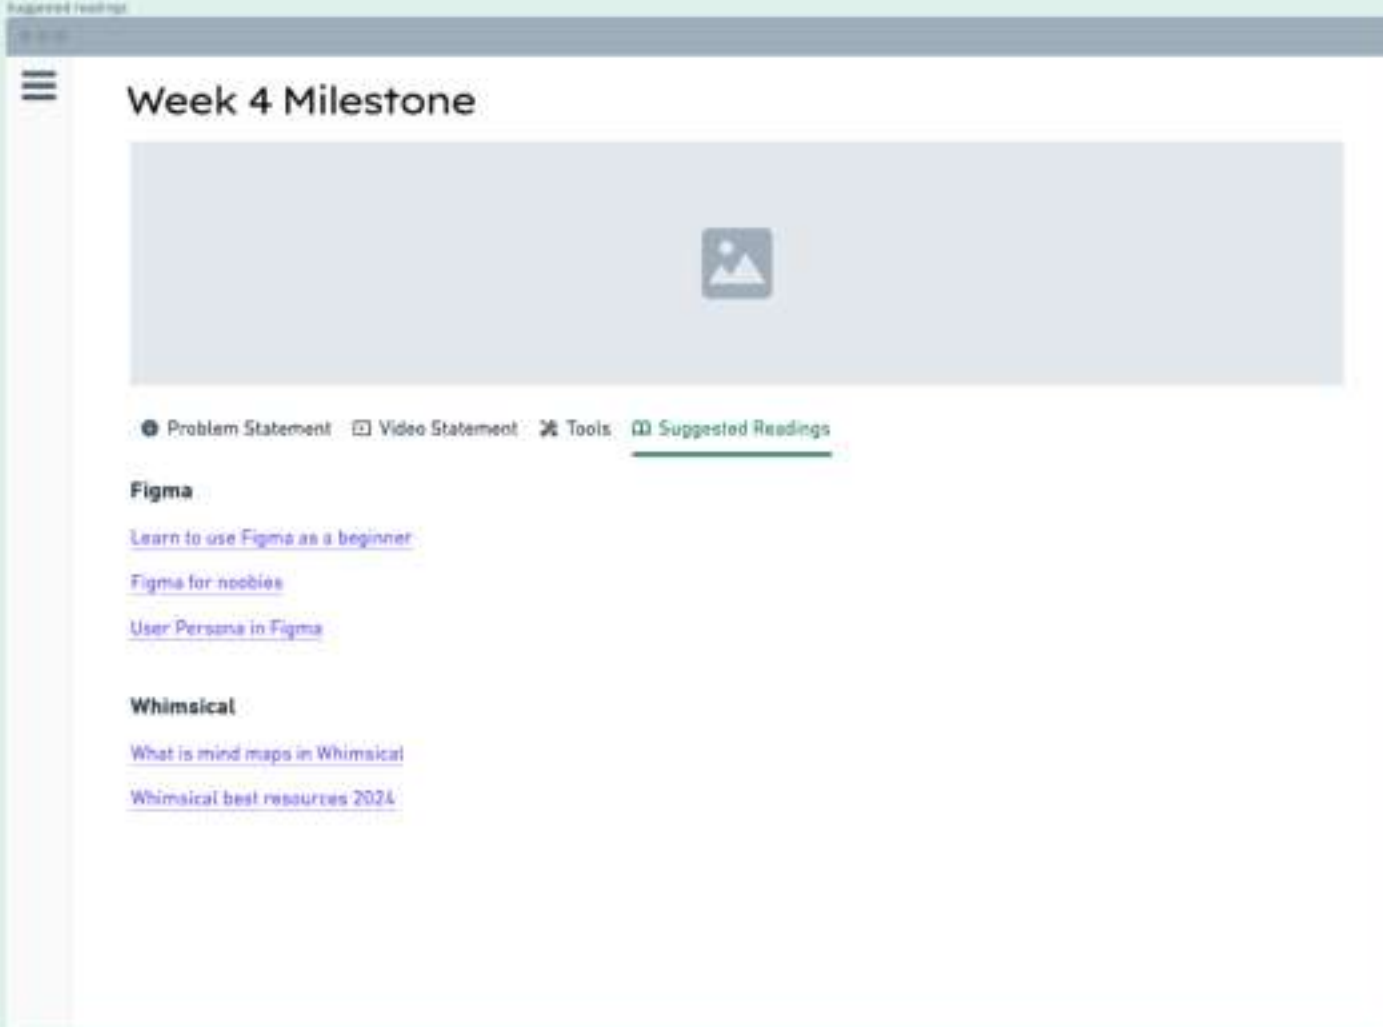

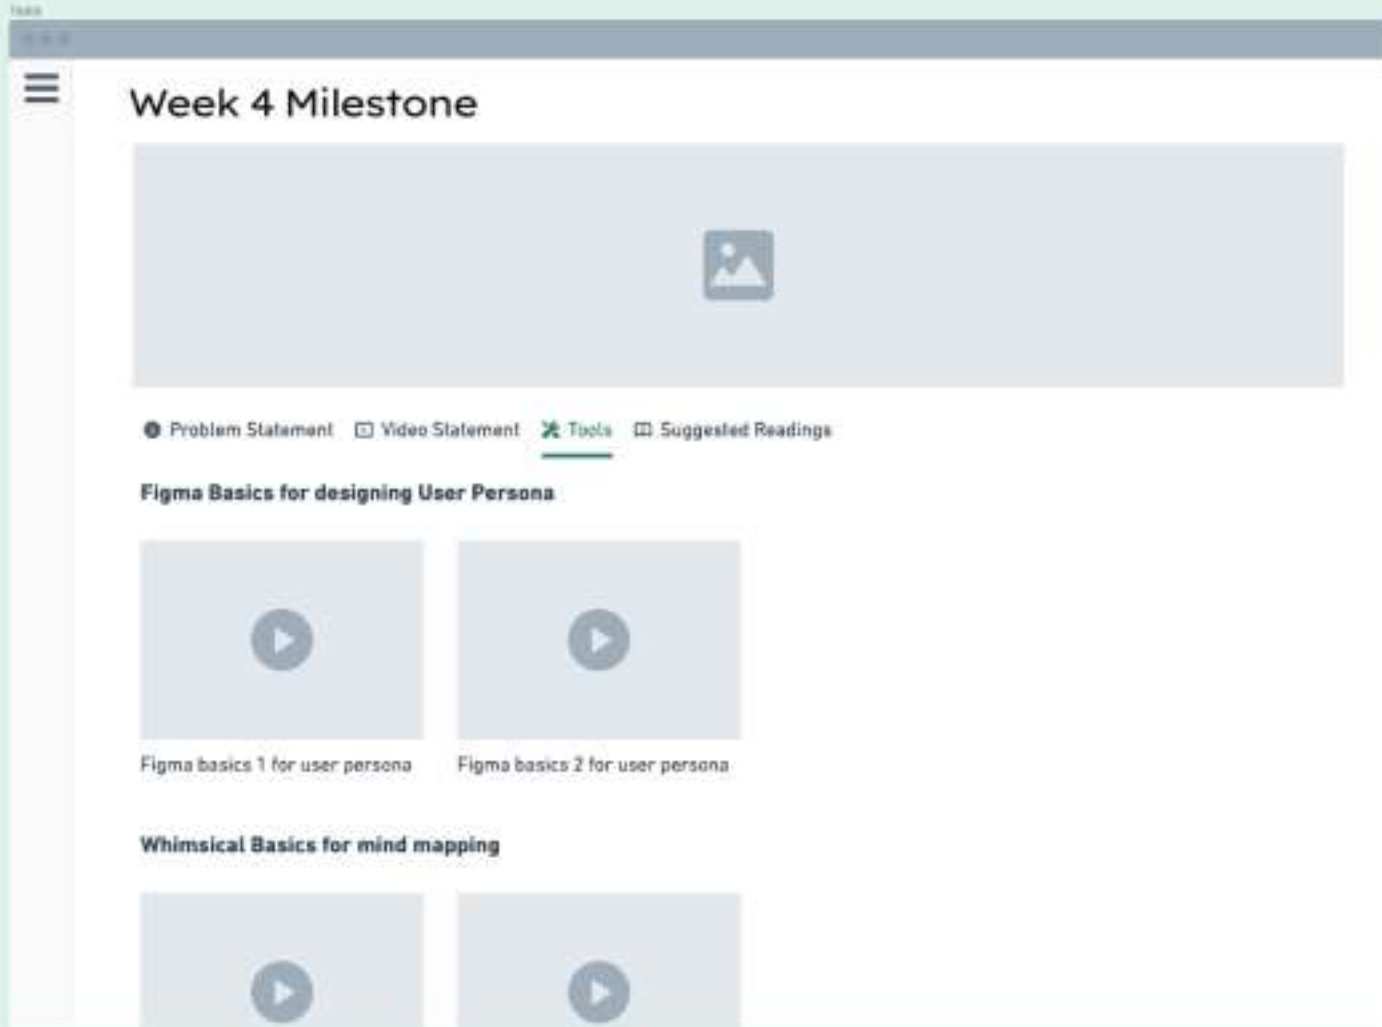

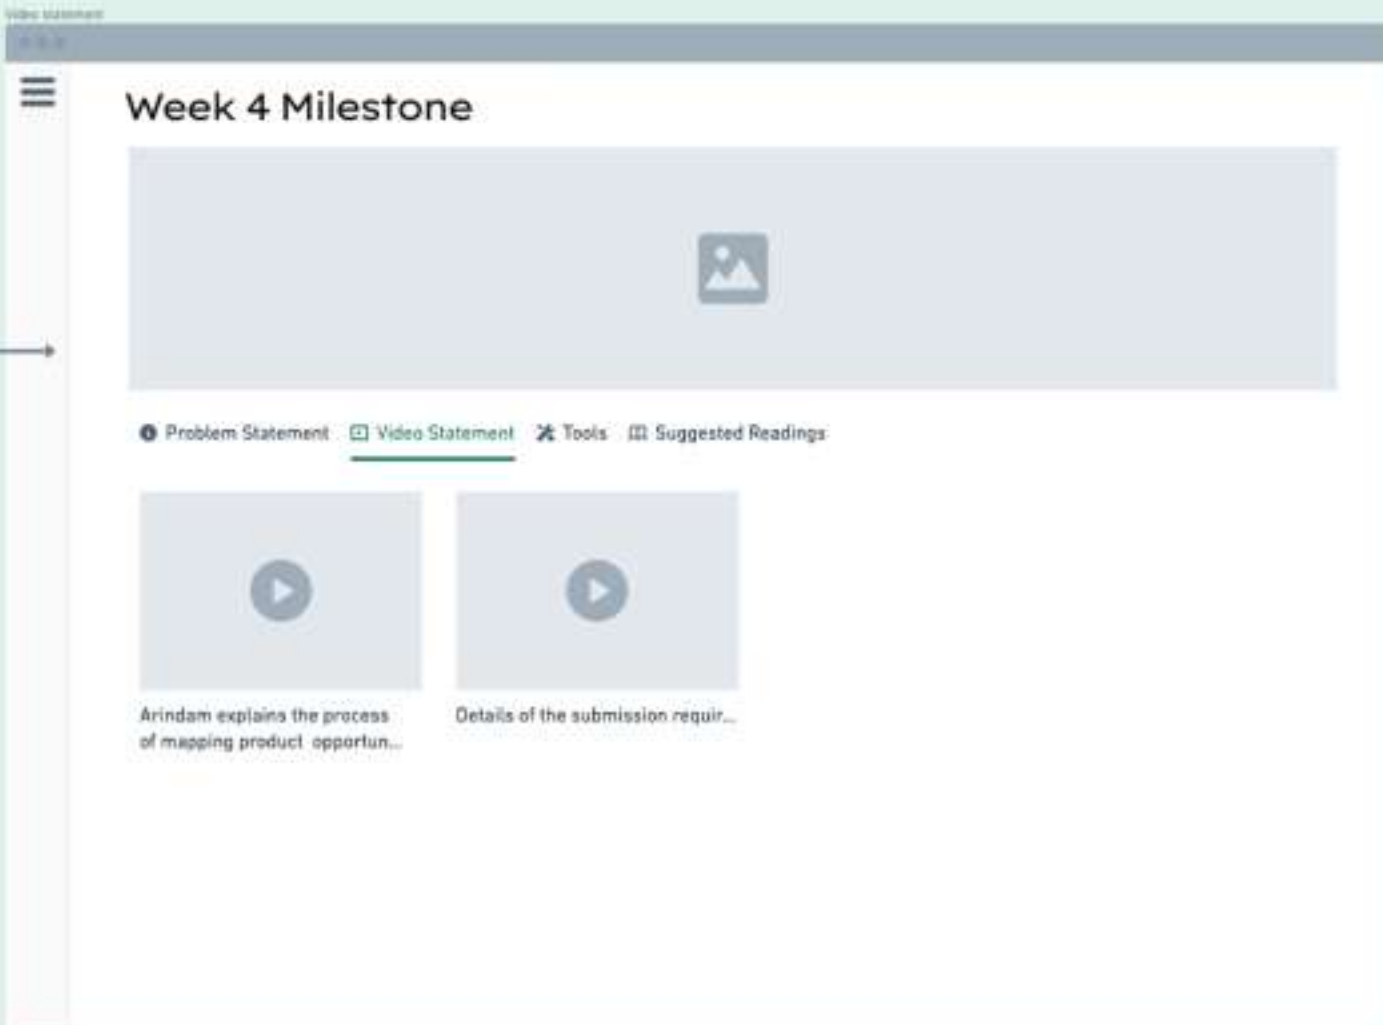

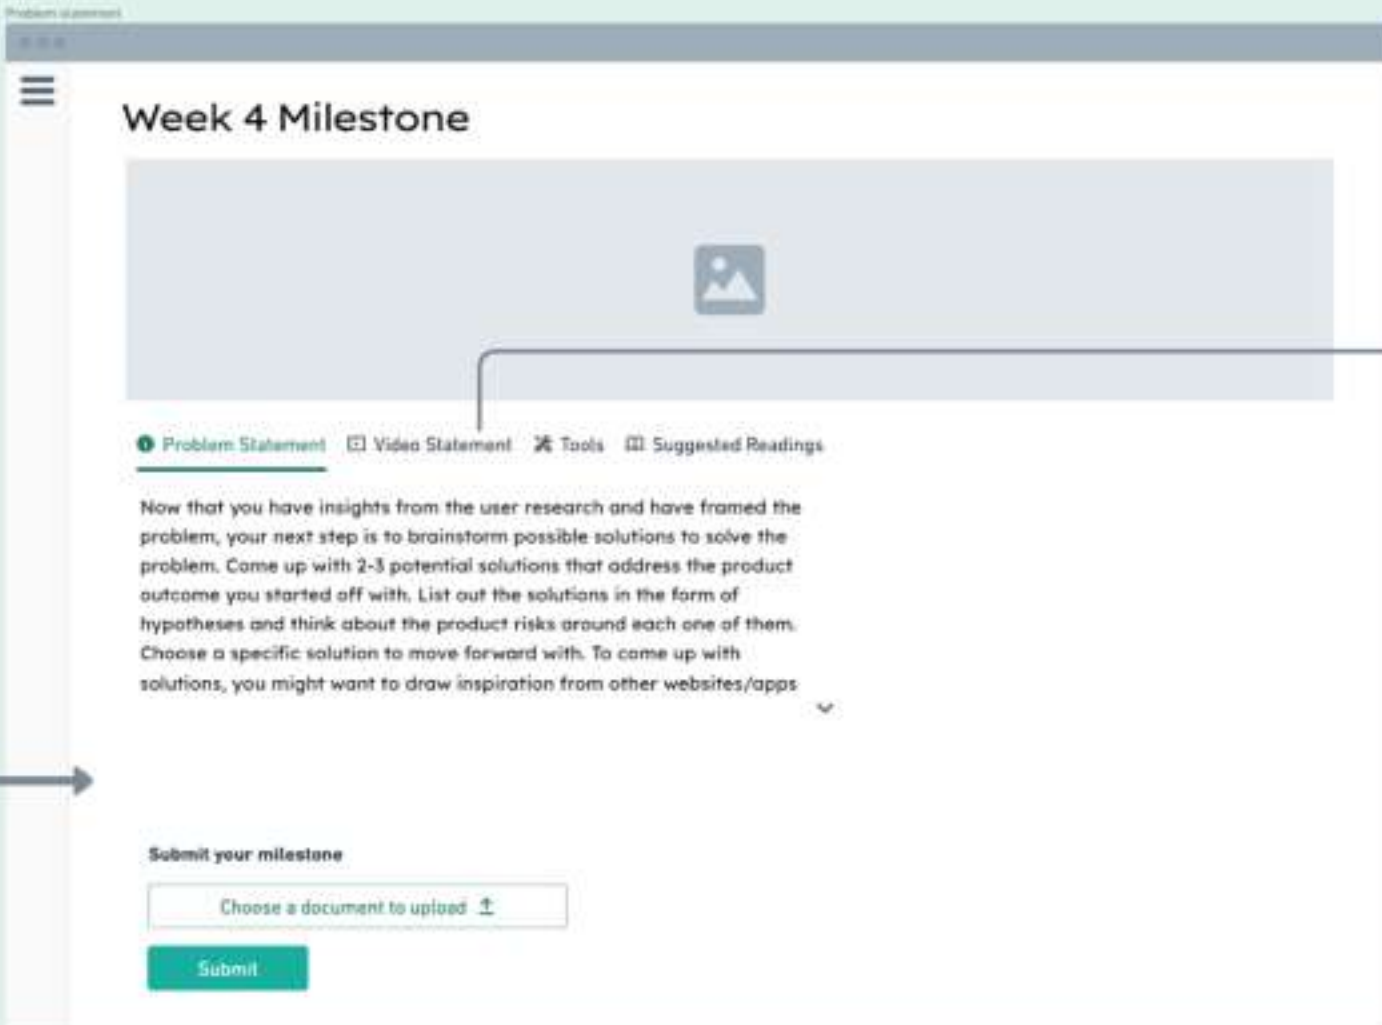

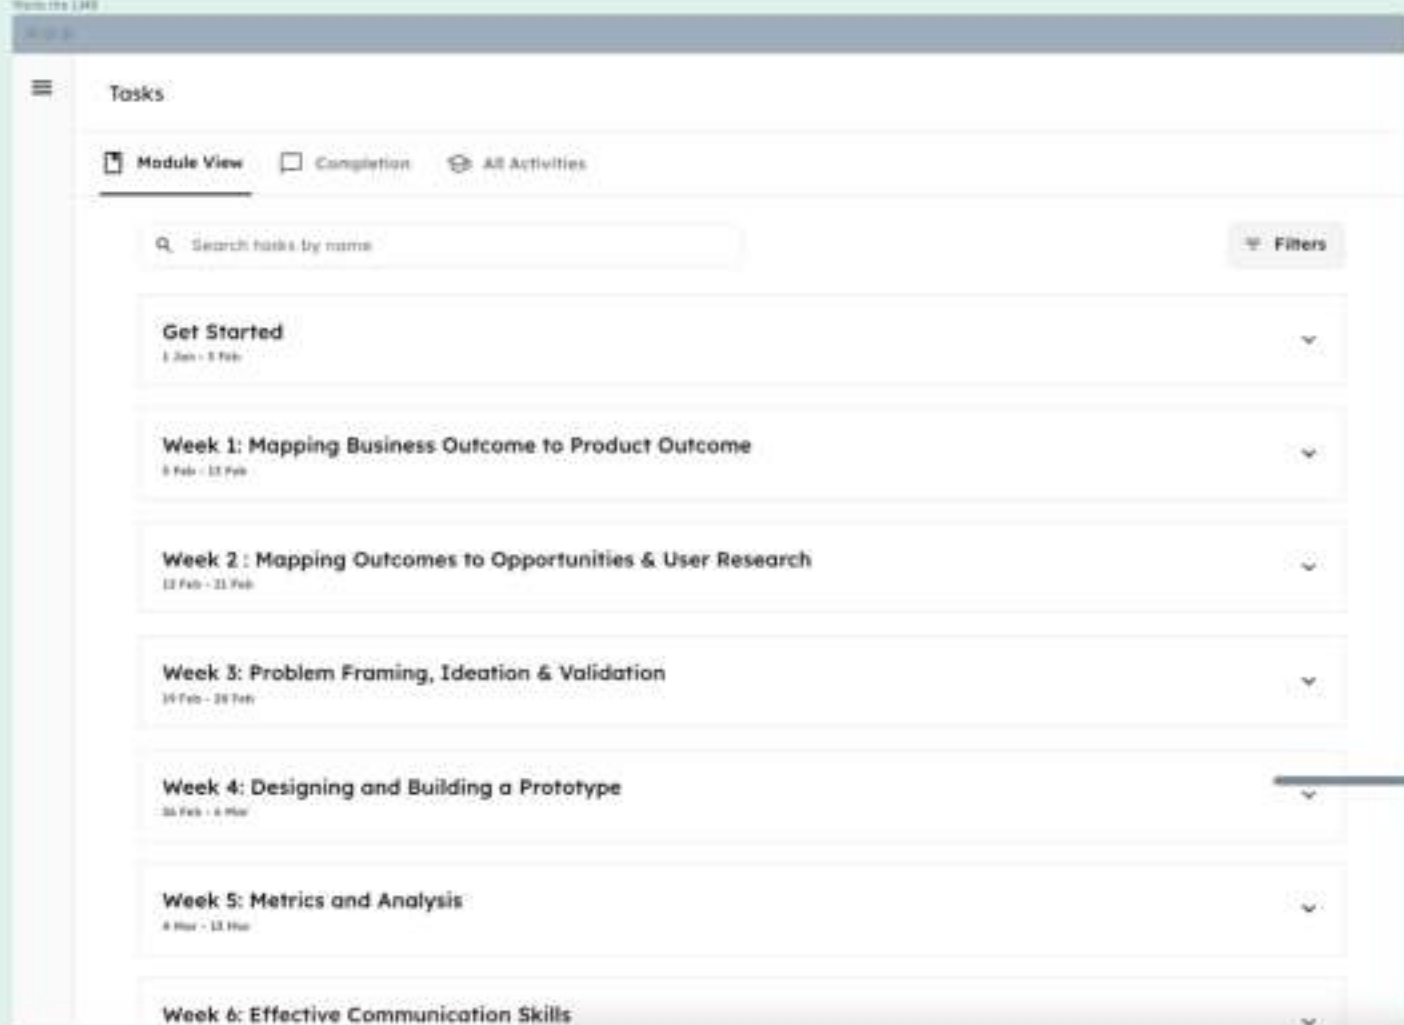

### What should be the prioritised solution?

Creating a **Resource Library** takes less effort and provides higher user value. Thus creating a Resources Library should be the chosen solution.

## Metrics

### Usage Metrics

- Number of fellows opening the video statement
- Number of fellows viewing the tools playlist
- Number of fellows clicking on the suggested readings

### Satisfaction metrics

- **Bounce rate** = # of fellows who visited the video statement tab but bounced back
- **Lack of help** = # of fellows who did not submit the milestone & visited video statement/tools / # of fellows who visit video statement/tools

### Non Functional Metrics

- Down time for the video statement
- # of broken link clicks in suggested readings

### Outcome metrics

- **Conversion rate** = # of submissions by fellows who visited the video statement / # of fellows opening the video statement
